Hi Paul,

I called Pat with USCG this morning. They said anything over \$3.5k with a viable PRP they will usually pursue cost recovery. As you mentioned he said they won't know for sure until all the cost are in. John Codd (202.795.6080) is the case officer if we need any more info. Terry is welcome to contact me if he needs more info.

Chicago inquiry on Ozinga Fire. Any idea if USCG plans to cost recover? The person to check with is OSLTF co tact assigned by Pat to the case. They usually don't make a call in this til all the costs are rounded up.

Hey Paul,

EPA/DOJ are still going after cost recovery for this right? Our Law Dept. asked me to inquire. Thanks,
Terry
